

Atlas Economic Research Foundation Institute Directory

WELCOME to the INSTITUTE DIRECTORY

This spreadsheet compiles information on nearly 500 institutes worldwide who are sympathetic to the values of a free society. Not all institutes listed in this directory have been involved in Atlas programs in the past, however, Atlas has been exposed to all these institutes to some capacity. The primary function of this directory is to provide members of the Atlas Network contact information about other institutes around the world that are working to promote a free society. You do not necessarily have to be an active member of the Atlas Network in order to be listed in this directory.

HOW to use the INSTITUTE DIRECTORY

Use the regional tabs to view a list of all Institutes for which we have current information, including a short summary of the institute's purpose. You can sort and filter this list by country and city or state to find institutes of interest to you.

Also, you may use the Find function to look for key words that might appear in the purpose field.

If you represent an institute that has incomplete information, or an institute that is not listed, please contact the Associate Director of Institute Relations at joseph.humire@atlasnetwork.org

Please enter "Request for Listing in Database" in the subject line. If you discover an error, please also contact us and indicate "Correction for Database." We appreciate your assistance in keeping this shared tool as accurate as possible.
